

On the Horizon

BPHC Establishing Service Agreements to Accelerate Project Implementation

The Organizational and Project Implementation Plans, which were submitted with our first Quarterly Report on July 31st, provide firm footing for our PPS as we turn our attention toward launching our ten DSRIP projects.

As we move into project implementation, BPHC is establishing service agreements with partners in our PPS that have mastered care delivery models that are central to some of our key projects. Through project-specific service agreements, these partners will share their expertise and lead project implementation for our ED Triage, Transitions of Care, and PC/BH Integration, and Asthma projects.

DSRIP Program Managers Recruited to Support Specific Partners

Having completed our Organizational and Project Implementation Plans, BPHC is prepared to enter the early stages of project implementation. We are currently recruiting DSRIP Program Managers to coordinate DSRIP projects on the organizational level. DSRIP Program Managers will work with member organizations that have a significant complement of primary care providers and are engaged in multiple DSRIP projects.

DSRIP Program Managers will coordinate resources, integrate project implementation activities, and help track the organization's progress on its projects. In addition, they will coordinate project reporting to the CSO and serve as the point of contact for communications between the partner and the CSO.

They will be employed by and report directly to the Partner organization, and will meet regularly with members of the CSO to ensure effective communication. DSRIP Program Managers will be compensated with DSRIP funds, the details of which will be delineated in the schedules attached to the Master Services Agreement.

NYS DOH Reopened CRFP Application Process

The NYS DOH is re-opening the CRFP application process due to the high number of disqualified applicants. While BPHC's CRFP package, consisting of 36 proposals, was approved except for one minor discrepancy, the reopening of the submission process provides another opportunity for BPHC members to apply for CRFP funds.

Applicants who received a letter of disqualification are required to resubmit their applications. DOH will also accept new or re-submitted applications from any qualified entity. Please send your CRFP applications to Lawrence Robertson by noon on Monday, August 24th. For more information, please refer to the [eBlast](#) sent on Tuesday, August 11th.

In Case You Missed It

MSA Posted to website

After being reviewed by over 60 members of our PPS, the Master Service Agreement (MSA) was approved by the Executive Committee on July 23rd. The final MSA is now posted to [our website](#).

CBS Discussion Sessions

We will be hosting discussion sessions throughout August for our partners to explore the roles of community-based services in DSRIP projects. We will distribute event invitations with further details. Please let [Albert Alvarez](#) know if you are interested in joining a discussion session.

Upcoming Events
