BPHC Online Resource Directory to Feature PPS Members

Stay tuned...BPHC is developing an online, searchable "Resource Directory" of PPS members that will highlight the range of services our organizations provide to Bronx patients.

All PPS members received an online form requesting updated information about your organization.

The Resource Directory will be accessible through BPHC's website and communications to our 240+ member organizations, our combined workforce of over 70,000 and the community. It will go live in early 2017.

If your organization has not completed the online form or if you have any questions, please contact Albert Alvarez at AAlvarez3@sbhny.org, 718-960-3783.

DSRIP is...

Helping people seek and use health insurance

PPS members in our Community Health Literacy (CHL) project are beginning outreach campaigns to inform their communities about health insurance options including the types available, who is eligible, and how to apply.

Seven organizations took part in our first CHL training module on seeking and using health insurance, developed and delivered by the NYC Human Resource Administration's Office of Health Insurance Access.

The CHL project connects eligible people who are often "under-utilizers" of health care services to insurance, primary care, health homes and other services that keep them healthy and prevent the need for hospital care.

Heidi Hynes, Executive Director of the Mary Mitchell Family & Youth Center (MMFYC), a CHL project member, said that the curriculum will help many in her community who often do not realize they are eligible for insurance let alone understand how it works or the application process.

Read more about MMFYC in our PPS Member Feature on the right.
