

On the Horizon

BPHC Surveys Customized to Provider Type

To profile the capability and capacity of our partners, we recently developed a survey for our partners, which we piloted with Acacia Network, Montefiore Medical Center, Morris Heights Health Center, Bronx United IPA, The Institute for Family Health, and SBH Health System.

Based on the results of this pilot, we are customizing questions to each type of service provider. We will distribute surveys to the entire PPS by April 15th, although some organizations may receive them earlier. Stay tuned for more information about when and how to submit completed surveys.

Thank You to Our Transitional Work Groups

On Thursday, March 12th, Transitional Work Groups discussed risk and mitigation strategies for BPHC's Implementation Plan.

Transitional Work Groups (TWG's) met for the first time on Thursday, March 12th to provide valuable feedback to our Implementation Plan. The meeting focused on identifying risks in our project plan and strategies for mitigating these risks.

TWG's will continue to convene in the upcoming months to contribute clinical and community expertise to BPHC's Clinical Operations Plans.

Clinical Operations Plans outline timelines and milestones, workflow, operations, and other elements specific to each BPHC project.

The three TWG's are The Care Management and Care Transitions Team, The Primary Care and Behavioral Health Integration Team, and The CVD/Asthma/Diabetes Team.

In Case You Missed It

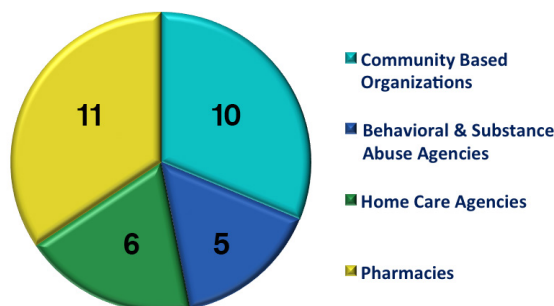

111 Subcommittee Nominations Received

Last Wednesday, March 18th, we received 111 Subcommittee Nominations from 60 member organizations. The Steering Committee will now review and approve these nominations. Selected nominees will be notified within the upcoming weeks.

Over 200 Organizations in Our PPS

On Monday, March 9th, we added 32 new organizations to our PPS! We now have a total of 202 organizations in our network. We will continue to modify the list of providers in our PPS as we move forward.
