

On the Horizon

Survey Distributed to Profile Community-Based Services in BPHC

We have recently learned a great deal about the healthcare services available within our PPS, but BPHC has also distributed a survey to learn more about the community-based services our PPS members provide.

Many PPS member organizations, from hospitals to community-based organizations, offer social support services to keep their communities well, safe, and connected to care. Our PPS will integrate these services into DSRIP projects to address the social and cultural factors that lead to or exacerbate health conditions.

Upcoming Discussion Sessions about Community-Based Services

We have scheduled four in-person discussion sessions in July, during which PPS members will explore the role of community-based services in DSRIP projects. We strongly encourage attendance at these sessions, as community-based services are vital to the success of our DSRIP program.

All attendees must register for these sessions by 1PM on Monday, July 13. We offer multiple sessions to accommodate varying schedules, and we hope that you will be able to attend. We will distribute an invitation containing further information later this week.

BPHC Members Discuss MSA Feedback and Revisions

On Wednesday, June 24, we held a conference call with over 60 participants to discuss the comments we've received from our members about our Master Service Agreement (MSA). We incorporated this feedback into the MSA and plan to present the revised document to the Executive Committee for final review and approval at their meeting on July 23. We will distribute the final MSA to the PPS on July 30, after which point no changes will be made to the documents.

In Case You Missed It

Reminder: All-Member PAC Webinar on July 8th

BPHC is hosting an All-Member PAC Webinar on July 8th from 10-11 AM. This meeting will update our members on the PPS's progress since our last All-Member Webinar in February. We will distribute more materials and information as we move closer to the webinar date.

NYeC Program Offers Financial Incentive to Join Bronx RHIO

We strongly encourage our PPS members to apply for the Data Engagement Incentive Program. This program, coordinated by the New York eHealth Collaborative (NYeC), offers a financial incentive for Bronx RHIO participation. Applications must be submitted by October 1st, 2015. For more information, please refer to [this presentation](#).
