### South Korean Delegation Looks to DSRIP for Healthcare Transformation

*Peggy Chan, NYS DSRIP Director (first row, third from left), joined BPHC in leading discussions on DSRIP from the state and federal perspective.*

BPHC recently hosted a delegation from the Korea National Health Insurance Service and the Korea Ministry of Health and Welfare to learn about our DSRIP work.

It is clear that across the country and the globe, governments share mutual goals of enhancing healthcare delivery, reducing costs and integrating care to improve outcomes. It is inspiring to see that our DSRIP efforts here in the Bronx can be a model for healthcare systems as they take on this challenge.

Our thanks to our partners who joined us and provided our guests with an informative and enlightening visit.

### BPHC Webinar: Non-Emergency A YXJWU' Transportation for Medicaid Recipients

Transportation is a covered benefit that enables Medicaid recipients to go to critical medical visits, including primary and behavioral healthcare, dialysis, and pre-natal care.

In New York City, the state Department of Health has contracted with MAS (Medical Answering Services) to authorize non-emergency medical transportation (NEMT) via taxi and livery services, ambulette, non-emergency ambulance, and more.

Please join us for a webinar that covers how the state's NEMT system works, including the range of services it offers, eligibility, and how your organization can pilot the use of NEMT to arrange for transportation for your patients.

### CMS Approves Updated VBP Roadmap

The Centers for Medicare and Medicaid Services (CMS) has approved the third annual update of the NYS Value Based Payment (VBP) Roadmap.

The VBP Roadmap update process incorporates feedback from key stakeholders throughout the state's healthcare system and the public.

The VBP Roadmap is intended to capture the current status of the state's progress in transitioning to VBP and will establish the framework through which VBP can be made possible.

Highlights from the recently approved VBP Roadmap include:

**Design for the Programs of All-Inclusive Care for the Elderly (PACE) program**

**Guidance related to use of quality measures for VBP**

**Emphasis on the role of Community Based Organizations and social determinants of health interventions while ensuring that interventions fall within 5 key social determinants domains.**

CMS's approval of the VBP Roadmap reaffirms that New York State's Medicaid program is leading the way for the nation in the shift towards VBP and healthcare system transformation.

The year 3 VBP Roadmap is now available on the state's DOH website under the 'VBP Roadmap' tab [in this link](#).
